CONGRESS

CONNECT

V I R T U A L E X P E R I E N C E

THANK YOU

There comes a time during every storm, when the light of day begins to shine through. The Covid-19 pandemic has forced the cancellation of many major events around the world, and we have all had to adapt to a new way of life. Our daily routines continue to evolve, and so do those of our businesses.

The Landscape Ontario event team has seen this as an opportunity to finally dive into the digital realm to build a year-long marketplace to support your business needs. We would like to welcome you to Congress Connect — a virtual marketplace where members can feature products, provide extensive education programs and provide a user-friendly forum to enable interaction all year long. Our long-term vision has been accelerated by this pandemic.

This new opportunity comes with a steep learning curve. We are all trained to help customers face-to-face. Over the course of several months, we have had to learn about many different online platforms, and spoken with many of you at length to learn about your needs in a world that changes daily. Taking those needs into account, we sourced out the best digital platform for our mutual success. We must also secure LO's future in this new digital space.

We are extremely proud of the many companies who have chosen to step-up and venture into this new future with us. Many see the value in Congress Connect, as well as the opportunity to support Landscape Ontario and its future. To those companies we thank you for putting your trust in us. We also thank you for spending the time and resources to take on the digital learning curve. We thank you for being leaders and risk takers.

For the visitors to our digital marketplace, we hope that throughout the year you will continue to return to the site as each digital space will be refreshed. We will certainly deliver great content, as well as on-demand content that you can replay and digest at your own pace and convenience. The last thing we want is for visitors to feel they are stuck behind a screen all day. We really hope you come back throughout the year and visit.

Most importantly, we would also like to thank the Congress community. The legacy of Congress is so important and we look forward to seeing you all face-to-face very soon.

Please sit back, relax and enjoy the digital experience for all of 2021 with Landscape Ontario's Congress Connect!

Stay safe, be well.

PhosARREST Arbourdale

www.arbourdale.com | david@arbourdale.com

PhosARREST is your frontline for algae defense. Spraying PhosARREST on the water surface binds phosphorous in the water column making it unavailable as food for algae. PhosARREST is safe for people, pets, fish, plants and amphibians. Our proprietary formula of natural ingredients draws in phosphorous like a magnet as it descends through the water and locks it up for good. An application once a year is usually enough to keep your pond clean and algae free all season long. PhosARREST is an easy to apply, affordable algae barrier that works to anchor your pond treatment program.
